NEW FLOWER CREATIONS and SPECIALTIES for 1952

ASTER "KIRKWELL" Wilt Resistant

This new base-branching Aster grows to a height of 12 inches with double flowers more than 2 inches across and blooms around early August.

Due to its dwarf compact shape and its very free flowering habit the Kirkwell can be used for border edging and rock gardens. Florists will find it a welcome novelty and money maker as a summer pot plant.

COSMOS "FIESTA"

The festival colors of Old Mexico, combined in one flower by the plant breeder's magic, bring this sparkling newcomer All America's TOP AWARD for 1952. A new color for the garden landscape — true scarlet. Early, heat-loving, easy to grow, Fiesta makes a compact 2½ ft. plant with a riot of bloom all summer long. Flowers are semi-double, ruffled, borne like tropical birds amidst lacy foliage. It's a cutflower for the house, a handsome border subject for the garden—neat, trouble-free.

-----------------	-------------------	-----------------

HELIOTROPE Giant Flowered "PACIFIC"

A much glorified, modern version of an old-time favorite. The result of 5 years individual plant selection to obtain the "world's" largest flowered strain of Heliotrope. It is unexcelled in size, with individual flower clusters a foot or more in diameter. Flowers are very fragrant and include a complete range of blue shades. Plants are approximately 30 inches in height.

MARIGOLD Dwarf French Double "COLOR MAGIC"

It's the brightest and most interesting natural color mixture in Marigolds. Some of the plants are pure, brilliant red—the most non-fading red in Marigolds. Others are pure yellow, and others in bicolor combinations of bright red and true scarlet with yellow. It's very early to flower and blooms continuously throughout the summer. Flowers are up to 2 inches or more in diameter (larger than any other French variety), and are of a distinct and fully double form. The ideal variety for edging or bedding purposes.

PHLOX DRUMMONDI "TOM THUMB" Mixed (Globe Phlox)

Extra dwarf globe shaped new Phlox of great merit. A brilliant mixture of such colors as red, rose, pink, white, violet, yellow and many intermediate shades. Plants are very dwarf and make ball-shaped growth.

-----------------	-------------------	-------------------	-----------------

ZINNIA "PERSIAN CARPET" (22000 seeds per oz.)

Like tiny Dahlias, each with its pointed petals tipped with contrast, these perfect miniature Zinnias make the ideal garden edging subject. Dwarf plants begin blooming early; grow into tidy, well-behaved 12 inch mounds of brilliant color, each plant different. The variegated flowers, each the size of a silver dollar, are fully double (they do have cutting stems, and dainty foliage quite unlike most Zinnias). The perfect size for window boxes; apartment gardens and borders etc.

GIANT SKYSCRAPER SNAPDRAGONS

Mixed Colors. These Giant Skyscraper Snapdragons were created on Floradale Farms after eight years of breeding, selection and reselection to produce a race of antirrhinums that would far surpass all others in height, and would also have more flowers per stem, the stems more upright, more rigid and the blooms of the most pleasing shades in the lighter tones. Giant Skyscrapers are the tallest growing of all snapdragons. Whether in the garden or in cut-flower arrangements they are equally striking for their distinctive beauty.

Tr. Pkt.....35c 1/8 oz.....85c 1/4 oz.....\$1.50 1 oz.....\$5.50

DOUBLE SNAPDRAGONS

First giant, all double snapdragons ever grown from seed. Flowers are spectacular, not only for size but for their unusual and amazing formation. They are quite large, 1¾ in. across and 1½ in. deep when well grown. The upper lip broadens and recurves gracefully. From the rounded portion of the lower lip there is a protruding flare which is slightly frilled. Between the lips, extending out from the throat, are several small, wavy accessory petals which add grace, charm and refinement, as well as surprise, to an already handsome flower of unsurpassed quality. Unsurpassed for cutting and garden use.

Burpee Double. Flowers are rich, deep golden yellow throughout, except for the back of the buds which are flushed with rose-pink. When fully open, the pink coloring disappears entirely.

Floradale Double. Formation of the flowers is similar to Burpee Double, perhaps more double and several shades lighter in color—a soft Dresden yellow.

Lemonade Double. The immense flowers are of a clear primrose-yellow and nicely placed on long, strong stems. The central spike grows 3 ft. tall.

"SAKATA'S" ALL-DOUBLE VICTORIOUS STRAIN

Amaranth Red. Large, well fringed flowers, 11-13 in. high.

Gaity. Extra dwarf and compact, with large well fringed, full double flowers. A bicolor in rose or light rose-red with white ground.

Illumination Improved. A bright red overlaid with a scarlet sheen; dwarf and compact with large fringed flowers.

Loveliness. Very dwarf and compact, almost same as Gaity in growth, but with clear La France pink color. Highly recommended.

Prima Donna (Orange). Extra dwarf and compact, which makes it an ideal pot plant. The nearest to orange in Petunias.

Purple Glow. Deep glowing purple with velvety blue sheen.

Purple and White. Large, well fringed flowers, variegated and striped with rich purple and white. Fairly compact and dwarf.

Silver Blue. Clear light blue flowers without vein. Flowers are well fringed and measure over 3½ inches across.

Pure White Improved (Snowball). Very compact and dwarf, growing but 10 inches tall. Large, fully double, well fringed flowers.

World Beauty or Rosy Carmine Improved. (Pink Perfection). Uniformity and growth and a brighter rose color will increase the popularity of this variety more than ever.

NEW PAN-AMERICAN and SAKATA'S F-1 HYBRID PETUNIAS

This class is the newest and in our opinion the most important innovation in Petunias since the All-Double Petunias were first introduced. Here we have hybrid vigor combined with the first really uniform true-to-type grandiflora single Petunias. All are excellent for pots and outstanding for bedding.

Ballerina. Soft glowing salmon, dwarf, compact, vigorous. 3½-4 inch blooms.

Bolero. Gorgeous carmine-rose pink flowers, well ruffled and fringed.

La Paloma. Pure white with yellow throat. Large, well fringed flowers. 100% grandiflora. Very uniform and vigorous. Sown Dec. 1, La Paloma makes a gorgeously beautiful Easter pot plant.

Tango. Bright, deep scarlet-salmon, far showier than 'Carmencita'. The reddest of all Grandiflora Petunias. Makes a blazing mass of color in the garden.

Above 4, each: ½ Tr. Pkt.\$1.00 1 Tr. Pkt.\$2.00 1/128 oz.\$3.50 1/64 oz.\$7.00

Deep Rose. Large, brilliant rich rose flowers, 3½ inches across on dwarf, compact plants.

Scarlet Crimson. Large, rich scarlet crimson flowers, well fringed on uniformly dwarf plants.

Scarlet Orange. The most striking colored Petunia ever introduced. Large, vivid orange scarlet, well fringed flowers on uniformly dwarf, 10 inch plants.

HOLLYHOCK-DOUBLE TRIUMPH SUPREME

Color range of unsurpassed variety. All the favorite colors plus vivid scarlets, orange, and buff combinations not to be found in existing strains. Full double blooms gracefully waved and fringed show well above the foliage. Rust resistance is present to a high degree, greatly overcoming this major handicap to the growing of Hollyhocks in many areas. Early blooming.
